AbilityOne

PROGRAM

As an economic engine in the Southeast region, Lighthouse Louisiana operates a modern manufacturing facility in New Orleans, where 87% of employees are blind or visually impaired.

On a tour of the Lighthouse facilities, you'll see individuals who are low vision, blind, or have other disabilities operating some of the same high-speed equipment found in any competitive manufacturing facility to produce quality products.

The Ability One Program, established by the Javits-Wagner-O'Day Act (JWOD), helps nearly 50,000 individuals who are blind or have severe disabilities find employment.

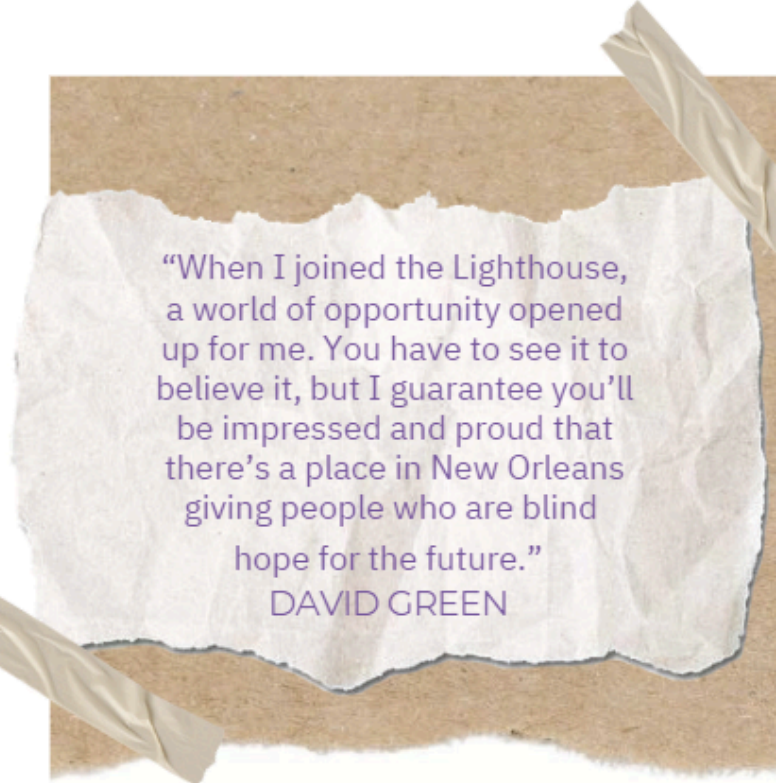

The program coordinates with non-profit organizations nationwide to provide these individuals with job opportunities and deliver goods and services to the federal government at fair market prices.

These quality SKILCRAFT products are produced by The Lighthouse for the Blind, New Orleans, LA.

Purchasing these products fulfills the required source provisions of JWOD Act and FAR Clause 52.208-9.

SKILCRAFT is a registered trademark licensed by National Industries for the Blind.

"When I joined the Lighthouse, a world of opportunity opened up for me. You have to see it to believe it, but I guarantee you'll be impressed and proud that there's a place in New Orleans giving people who are blind

hope for the future."
